
Chapter 2

Metric base units (Section 1.4)

Abbreviations for metric units (Section 1.4)

Metric units derived from prefixes and base units (Section 1.4)

Metric prefixes (Section 1.4)

Relationships between base units and derived units, e.g. 1 m = 10^3 mm (Section 1.4)

Measurement precision (Section 1.4)

Metric-Metric conversions

Rounding off answers when multiplying and dividing

Memorized English-metric conversion factors

Unit analysis format for unit conversions

English-Metric conversions

Density calculations

Using percentage as a conversion factor
